

My Data Capture - Instructions & attention points

- Please make sure the product labels and/or artworks *contain all information/are clearly readable*. This can be done by uploading:
 - 1) an artwork with all information in a flat view (example 1).
 - 2) by composing one image with different images of all sides of the product (example 2)
 - 3) Uploading multiple documents for one GTIN (e.g., multiple JPEG files, a PDF artwork + a JPEG file, etc.) (example 3)
- Naming convention:
 - GTIN-14 (add leading zero where relevant)
 - In case there are multiple product labels/artworks per item, please use the GTIN + underscore and unique number (_01, _02, etc.) to keep the label name unique
- Accepted formats/types: JPEG/PNG/Tiff/PDF

Example 1

✓ 00000042104773

Example 2

✓ 08076809545440

Example 3

In case of multiple documents per GTIN, use underscore like this:

✓ 05410921001430_01

✓ 05410921001430_02
